Camelot has been an Authorized LINX System Solution Provider since 1990. We provide application design, software development and system integration services for the following applications:

- Data Acquisition
- Inventory Control
- Item and Lot Tracking
- Labor Scheduling
- Machine Control
- Manufacturing Data Collection
- Personal Identification
- Package Control Systems
- Production Control
- Property Identification
- Quality Control
- Shipping and Receiving
- Shop Floor Control
- Time and Attendance
- Work-in-Process

We specialize in providing bar code printing and data collection systems to the Manufacturing, Electronics and Electrical industries. We design, develop and provide customized front-end systems for existing applications, complete closed loop systems, and integration to various products including ADP for payroll and numerous other software applications where we provide a front-end data collection, Web-based, system to collect and feed data to the application software.
