CODIBAR has been an Authorized LINX System Solution Provider since 1996. We provide barcode-oriented applications and system integration services for the following:

- Machine Control
- Manufacturing Data Collection
- Personal Identification
- Production Control
- Quality Control
- Time and Attendance

We are focused upon serving the following industries:

- Automotive
- Food Processing
- Hospital
- Manufacturing
- Textile

We specialize in automatic data collection with the application of barcodes and radio frequency identification. Our standard applications are Time & Attendance and kinder garden control. Our Time & Attendance application has been linked with payroll applications from SAGE/Infologia, Primavera, PHC and others. We have supplied custom applications for data collection, quality control and production control to a variety of manufacturing industries.
